Eric Yicheng Lu Game Designer | Level Designer

ylu7@alumni.cmu.edu • +1 973 234 6537 • Orlando 32828, USA • https://yichenggames.github.io/

Education

Carnegie Mellon University, Entertainment Technology Center
• Master of Entertainment Technology, 09/2022 - 05/2024
Rutgers, The State University of New Jersey
• B.S. Computer Science, Minor in Mathematics, 09/2018 - 01/2022

Projects

https://yichenggames.github.io/

Old Temple — Level Design, Technical Design, Combat Design **Nov 2023**
A soul-like level inspired by Stormveil Castle in Elden Ring
• **Level Greyboxing:** Developed initial structure using geometric shapes to outline layout and design.
• **Feature Scripting and Puzzle Design:** Utilized toolkit for scripting in UE5 Blueprint, designed combat and puzzles with triggers, and established spatial connections in the level.

Liubo — Map Design, Gameplay & Rule Design, Tutorial Design **Jan 2023**
A board game originating from ancient Chinese and revived by our own rules and game play
• **Rules Iteration:** Analyzed feedback from 25+ playtests and iterated the rules and movement.
• **Tutorial Design:** Designed approachable game scenarios to ease players into the gameplay at the beginning.
• Contribution: storytelling, map & rule design and iteration, tutorial design, programming.

Flying Fish — Motion Controller, Level Design, Game Design **Nov 2022**
A motion controller game where player can control fish using their body motion on Icaros (Flying chair).
• **Storyboard and Level Design**: Prototyped 5 progressively difficult islands in the map as different levels.
• **Input System/Platform Test**: Tested and improved game experience on Icaros and Vive trackers.
• Contribution: storyboard, level design, programming, controller testing.

Work Experience

Level Designer — Glade Studio **Jun 2024 - Oct 2025**
• Expert in designing maps and levels for **MMORPGs**, creating immersive gameplay environments.
• Skilled in developing initial level concepts, layouts, and visual direction using mood boards.
• Proficient in transitioning concepts to Unreal Engine 5, using blockouts to create tangible level layouts.
• Experienced in playtesting and iterating designs based on feedback to ensure engaging, balanced gameplay.

Game Operation Trainee — Ubisoft Shanghai **May 2022 - Aug 2022**
• Ensured proper testing of in-game mails and announcements prior to launch.
• Assisted community manager with daily operations and document translations.

Leadership

Team Leader — Creation of Games Society **Jul 2020 - Jan 2022**
• Assist in organizing members to learn game design concept and the specific design steps every week.
• Work with teachers to develop mini-games, such as 2D games development with Unity.

Skills

Languages: Mandarin(native), English(fluent)
Computer Skills: C#, Unity, Unreal Blueprint, Houdini, Unreal & Unity VFX
